

Your suite is equipped with state of the art HVAC equipment

Please read about the special features of your Unilux VFC integrated HVAC system

Your HVAC Equipment includes an energy recovery ventilator.

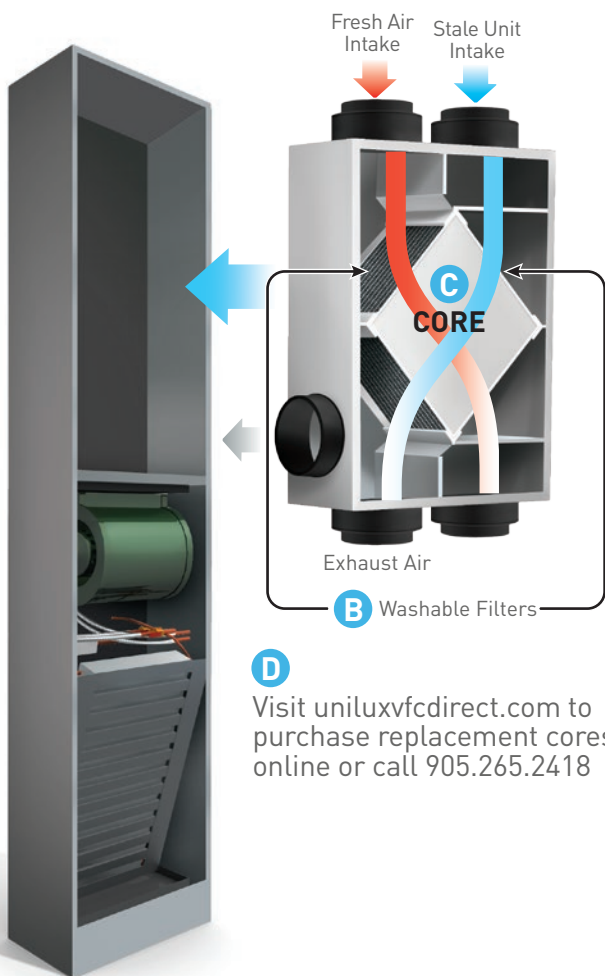

Fresh air is brought into your suite and is heated or cooled to recover up to 70% of the energy.

You Enjoy:

- Lower Energy Costs
- Constant fresh air supply
- Reliable, efficient heating and cooling
- The quietest HVAC System on the market

Unilux VFC with Integrated HRV/ERV
